

DHINAKARAN MS

AI & ML Engineer | kit27.am16@gmail.com | 7708846581

SUMMARY

Passionate and driven Computer Science student (AI & ML specialization) with hands-on experience in machine learning, front-end web development, and problem-solving. Eager to contribute to high-impact projects through innovative problem-solving, collaborative development, and continuous learning in a dynamic tech environment.

EDUCATION

KIT-KalaignarKarunanidhi Institute of Technology,Coimbatore

Bachelor of Engineering

Computer Science and Engineering (Artificial Intelligence & Machine Learning)

2023 - 2027

GPA: 7.70/10

SKILLS

- **Languages:** Python, C++, SQL, JavaScript, HTML, CSS
- **Frameworks/Libraries:** Bootstrap, Pandas, NumPy, Scikit-learn(Basic ML Models)
- **Tools & Platforms:** GitHub, Streamlit, VS Code, Google Colab, Jupyter Notebook
- **Core Areas:** Data Structures & Algorithms, OOP, API Integration, DBMS
- **Soft Skills:** Problem-solving, Team collaboration, Time management, Communication

EXPERIENCE

Machine Learning Intern – Appin Technology,Coimbatore

Dec 2024 - Jan 2025

- Developed an ML model for delivery time prediction with preprocessing and model evaluation (MAE/RMSE).
- Built a Streamlit front-end for real-time predictions.

Full Stack Development Intern – Learn Logicify Technologies LLP

Jun 2025

- Built and deployed projects like personal portfolio, to-do app, and utility tools using JavaScript, HTML, and CSS.
- Practiced UI/UX structuring and frontend optimization.

PROJECTS

Food Delivery Time Prediction

ML |Python, Pandas,scikit-learn, Streamlit

- Built a regression model to predict food delivery time using features like distance, weather,and traffic.
- Deployed via Streamlit for real-time predictions.

Flight Booking Website

Frontend |HTML, CSS,JS, Bootstrap

- Created a multi-page, responsive UI for selecting and booking flights.
- Modern UI and seamless navigation.

LEGAL RESEARCH ASSISTANT - (OnGoing)

Python | Langchain | RAG | LLMs |

- Developing a RAG-based legal search engine powered by LLMs to retrieve, analyze, and summarize case law and statutes. Designed to provide accurate, citation-backed answers for efficient legal research.

CERTIFICATION

NPTEL: Joy of Computing using Python – Elite Certification (72%), Design Thinking -A Premier - Elite Certification (68%)

Coursera: Get Started with Python,Machine Learning Basics – Sungkyunkwan University

ACHIEVEMENTS & COMPETITIONS

- **Competitive Programming:** Actively participating in CodeChef contests – Rated Division 3 Programmer.
- **Hackathon Recognition:** Shortlisted in MSME Hackathon 5.0 (Top 40 out of 900 teams) under the theme Industry Adoption of Industry 4.0 & 5.0.
- **Problem Solving:** Actively solving DSA problems on multiple platforms like LeetCode, CodeChef, and GeeksforGeeks.
