EDUCATION

KIT-Kalaignarkarunanidhi Institute of Technology, Coimbatore - Tamilnadu, India

2023-2027

BE . Computer Science Engineering (AI&ML),Pre Final Year

Current **CGPA : 7.7**

Coursework: DSA, Computer Architecture, Computer Networks, Operating Systems, Database Management Systems, OOPS

EXPERIENCE

Machine Learning Intern — Appin Technology

Dec 2024 – Jan 2025

- Developed ML-based diamond price prediction system with preprocessing, feature engineering, and model evaluation (MAE, RMSE).
- Developed a regression-based machine learning model to predict diamond prices based on features .

Full Stack Development Intern — Learn Logicify Technologies LLP

Jun 2025

- Built responsive web projects using HTML, CSS, and JavaScript with focus on UI/UX and frontend optimization.
- Implemented reusable UI components and ensured cross-browser compatibility and mobile responsiveness.

PROJECTS

Legal Research Assistant | Python, FastAPI, Neo4j, ChromaDB, Next.js, LLMs

[Link](#)

- Developed an AI-powered legal research platform using Agentic RAG architecture, enabling multi-step reasoning over Indian legal documents.
- Designed a multi-agent system (Planner, Retrieval, Conflict Checker, Synthesis) to dynamically process queries and improve answer accuracy
- Built a hybrid retrieval pipeline combining ChromaDB (vector search) and Neo4j (knowledge graph) for context-aware legal information retrieval.
- Implemented a scalable microservices architecture with Next.js frontend, Node.js (GraphQL) backend, and FastAPI AI engine, integrated with LLMs for citation-based responses.

Job Search Recommender System I Python, Streamlit, Scikit-learn, REST APIs

[Link](#)

- Developed an AI-powered mock interview platform enabling candidates to prepare for technical and behavioral interviews using role-specific question sets.
- Built a scalable text-processing pipeline using TF-IDF and embedding-based similarity models to improve job-candidate matching relevance
- Integrated external REST APIs (Adzuna) to fetch and process real-time job listings with structured categorization logic

Code Vulnerability Scanner AI | Python, FastAPI, React, Groq API, Docker

[Link](#)

- Developed an AI-powered code vulnerability scanner using a 5-agent pipeline (Detect, Analyze, Explain, Fix, Validate) to automate secure code auditing
- Built a scalable backend with FastAPI and integrated LLM (Llama 3 via Groq API) for real-time vulnerability detection and reasoning
- Designed a modern React + Vite frontend with real-time scan progress, interactive dashboards, and detailed security insights
- Implemented secure code execution and validation workflows, improving detection accuracy and reducing false positives

TECHNICAL SKILLS

Programming Languages: C, Python, Java, JavaScript

Web Development: HTML, CSS, React.js, REST APIs, FastAPI

Databases: SQL, MongoDB, Firebase

Libraries & Frameworks: NumPy, Pandas, Scikit-learn, Streamlit

Tools & Platforms: Git, GitHub, Docker, Vercel, Render

CS Fundamentals: DSA, OOPS, DBMS, OS

CERTIFICATION & COURSES

Google – Get Started with Python

[Link](#) 2024

Coursera – Machine Learning Basics

[Link](#) 2024

NPTEL – The Joy of Computing using Python (Elite)

[Link](#) 2024

IBM – SQL and Relational Databases 101

[Link](#) 2024

NPTEL – Design Thinking: A Primer (Elite)

[Link](#) 2025

Agent Blazer – Agent Blazer Champion

AWS - AWS Academy Graduate - Cloud Foundations [Link](#) 2026

COMPETITIVE PROGRAMMING

Leetcode : [dhinakaran311](https://leetcode.com/dhinakaran311/) | Max rating - 2328| Solved problems: 500+ | Top 0.46% globally | Badges : 10 | Highest Contest Rank : 158.

Codechef : [Kit23bam016](https://www.codechef.com/users/kit23bam016) | Max rating - 2152| Position : 5 Star | Solved Problems : 800+ | Highest rank 51

Codeforces : [kit23bam016](https://codeforces.com/profile/kit23bam016) | Max rating - 1900 | Position: Candidate Master| Solved problems: 100+ | Highest rank : 511.

ACHIEVEMENTS

- MSME Idea Hackathon 5.0 (2025):** Shortlisted in Top 40 ideas out of 900+ national submissions .
- KPTIET Coding Contest (2024):** Secured 2nd Place in institute-level programming competition .
- Research Paper: “HybridSkill-JRS: A Job Recommendation System in Real-Time Featuring Hybrid Skill Extraction and a Unified Career Development Framework”** presented at ICCSS 2025, Rathinam College of Engineering .
- Solved 1500+ competitive programming problems with consistent high-ranking performance.
- AgentHack26 – Internal Hackathon (Kalaignarkarunanidhi Institute of Technology, 2026):** Secured 2nd Place by developing a multi-agent system for automated code vulnerability detection and analysis.
